INDEX CRIMES

Chapter 50 of the Illinois Compiled Statutes, 709/5 mandates Illinois law enforcement agencies to report the occurrence of selected offenses and arrests within the **ten** Index Crime categories identified below. Prior to 2014, there were eight categories. Two Human Trafficking categories, Commercial Sex Acts and Involuntary Servitude, were added in 2014. There is significance to the order, or hierarchy, in which the crime categories are listed, with criminal homicide ranked the highest and human trafficking categories ranked the lowest. The Hierarchy Rule is discussed in detail in the scoring section. Index Crime offense and arrest categories reported <u>on a monthly basis</u> include:

1. Criminal Homicide

2. Rape

3. Robbery

4. Aggravated Battery/Aggravated Assault

5. Burglary

6. Theft

7. Motor Vehicle Theft

8. Arson

9. Human Trafficking – Commercial Sex Acts

10. Human Trafficking – Involuntary Servitude

Additionally, Index Crime reporting includes the submission of select drug offense arrests.

STEP 1 - Classifying Offenses

Classifying is reviewing the offense(s) that occurred in an incident and determining if the offense is required to be reported to the I-UCR Program. <u>The classification of an offense is based solely on the facts of an agency's investigation of a crime incident.</u> I-UCR classification and reporting may not always match the resulting charges. An offender who disarms a police officer and flees the scene may not be charged with robbery, but classification would determine a reportable robbery had occurred. Additionally, modification to a reportable offense initiated by the State's Attorney's Office does not impact reporting. If an agency initially classifies an offense as an aggravated battery, and action by the State's Attorney's Office reduces the charge to battery, the agency must still report an aggravated battery offense. Similarly, adjudication results do not negate the reporting of an offense. If a defendant is found not guilty in court proceedings of a reported offense or found guilty of a lesser, non-reportable offense, the agency does not adjust the monthly Index Crime report in which the offense was originally reported and remove or subtract the offense. The age of the offender does not impact reporting. If the offender of a reportable offense is a juvenile, the offense must still be reported. Index crime offenses that occur in jails or prisons are to be reported by the law enforcement agency having investigative jurisdiction of the jail or prison.
